Must-see spots of Zamami Village!

Statue of Marylin
Marylin and Shiro were two dogs living on Zamami and Aka islands. Shiro used to swim from Aka Island to visit Marylin. Now, a statue of Marylin stands by the road from the port to Ama beach, facing Shiro's sand.

Kami-no-Hama Observation Deck
A new observation deck on the Western side of Zamami Island, with a roof, tables, and seats. Great sunsets from April to October. The night sky here is also unparalleled.

Planetarium
You can see all the stars of Zamami in the island's planetarium. Why not come during the day and prepare for the night sky experience? Adults: ¥500. Children: ¥300. ☎ 098-996-1361

Nishibama Beach
Aka Island's main beach. The views from the deck terrace are not to be missed! With a seaside cafe nearby, it's a perfect place to relax. Be aware that during particularly low tides, the beach is too shallow to swim.

Takara Residence
Historical house also known as "The Captain's Estate" built in the 2nd half of the 19th century by a sea captain from the period of late Ryukyu Kingdom. Although damaged during the 2nd World War, it survives to this day.

Geruma Bridge
The bridge connecting Geruma and Fukaji islands, located next to the Geruma School. In winter, whales can sometimes be seen from the classroom windows. On a sunny day, the bridge is the no.1 underrated panorama spot. Recommended for a bike ride!
